WORKSHOP 4

"Chemicals : Banned substances, search for substitutes : which vision for 2030 ?"

Moderator

Tim Becker
Senior Legal Advisor, REACHLaw

Tim Becker is a legal counsel at REACHLaw for more than 10 years.

He is an expert on the REACH regulation and provides legal advice, advocacy and project management support to associations, companies and government agencies. He has produced numerous publications and presentations.

Matti Vainio
Head of Unit on Risk Management II, European Chemicals Agency

Matti Vainio has been working in the Risk Management Directorate of ECHA since August 2007.

He coordinates the socio-economic and alternative analysis of restrictions and authorisation applications, and has overall responsibility for the authorisation application process.

Before joining ECHA, he worked for 10 years at the European Commission as Deputy Head of Unit of the Clean Air and Transport Unit and the Energy and Environment Units, where he developed environmental policies on air quality, transport and climate change.

Alexandra Lesage
Project Officer REACH, European Defence Agency

Alexandra Lesage is Project Officer REACH at the European Defence Agency (EDA).

She is leading the Agency's activities on the REACH European Regulation on chemical substances, focusing on building a common understanding/exchanging best practices in the REACH Regulation implementation; identifying and mitigating the impact of REACH to defence and supporting harmonisation of national policies and procedures regarding granting of REACH defence exemptions, between EDA participating Member States.

Tina Branting
Environmental Officer, Swedish Defence Materiel Administration

Tina Branting works as environmental officer for the Swedish Defence Materiel Administration (FMV), where she is active in setting standards and reaching environmental and sustainability goals.

FMV is a governmental agency acting under the Ministry of Defence, with the main assignment from the Government to deliver materiel and services to the Swedish Armed Forces.

Massimo Scalvenzi

REACH Manager, Leonardo Company / Chair of the REACH & Chemicals Management working group, Aeronautics, Space, Defence and Security Industries (ASD)

Massimo Scalvenzi has a degree in Nuclear Engineering from Politecnico di Torino (February 1998).

In September 2013, he joined to the Corporate of Leonardo S.p.A., where he works in the "Chief Technology and Innovation Office" organization and is Leonardo S.p.A. REACh Manager and also responsible of "Engineering & Technology Processes" department.

From May 1999 to August 2013, he worked for Alenia Aermacchi S.p.A., first in the Engineering Process Improvement Department and then as Head of the "Program Quality for Defense Aircrafts" Department.

Dr. Nick Campbell

Président, fédération des producteurs européens de fluorocarbures (EFCTC)

Nick has spent over 30 years working primarily on the ozone issue and climate change.

He works for ARKEMA SA, based in Paris, as the Environment Manager for the Fluorinated Products Division. He is Chairman of the European Fluorocarbon Technical Committee (EFCTC) that represents the producers of fluorocarbons in the EU.

He is the former Chairman of the International Chamber of Commerce (ICC) Working Party on Climate Change from 1999 to 2011 and of the BUSINESSEUROPE Climate Change Working group from 2002 to 2015, representing EU Employers' federations as well as the former co-Chairman of the European Chemical Industry Council (CEFIC) Climate Change Strategy Implementation Group.

Elodie Simon
Lawyer, Jones Day

Elodie Simon has been practising for more than 10 years in the field of environmental law, in particular on polluted sites and soils and health risks (chemical and consumer products, nanomaterials, food).

She advises companies on French and European environmental regulations as well as on litigation before the French (civil, administrative and criminal) and European courts.
